How DNA testing can help

The tour will teach registrants how to use the services offered by Library and Archives Canada, after which they can conduct research and/or visit a room which has been reserved for 20 people at a time to discuss and share genealogy research. Participants will also have an opportunity to learn how DNA testing can be used to help discover family connections, as well as obtain information on the MacRae DNA Project. There will be time for discussion, so plan to bring along your family tree. You may spend a half or full day at the Library and Archives and take a break for lunch.

**Alternate morning activity:**

**9:30 a.m. - 11:45 a.m. - Canadian War Museum**

Some folk may have visited this museum in 2011, but one visit cannot do justice to all the museum's exhibits. Moreover, a visit certainly aligns with our theme, the commemoration of WW1. <http://www.warmuseum.ca>
